

Criteria for qualification from RMO 2026 to INMO 2027

1. To be considered for INMO 2027 a student who writes RMO 2026 will have to secure a nonzero mark in RMO 2026. Note this is not the sole qualifying criterion.
2. A RMO 2026 contestant from class 8, 9, 10, 11 will be classified as a **Category A** student.
3. A RMO 2026 contestant from class 12 will be classified as a **Category B** student.
4. From each region (list of regions: <https://www.mtai.org.in/rmo-region-codes/>)
 - (a) the top **30** students from **Category A** will qualify for INMO 2027. The ties in the 30th position will be broken by the IOQM 2026 scores.
 - (b) the top **6** students from **Category B** will qualify for INMO 2027. The ties in the 6th position will be broken by the IOQM 2026 scores.
 - (c) **5** additional girl students from **Category A** irrespective of the number of girl students qualifying in the top **30** students from **Category A** will qualify for INMO 2027 under **Girls' quota**.
 - (d) **There is no separate Girls' quota for Category B.** A girl student of **Category B** can qualify for INMO 2027 from RMO 2026 if and only if she is selected among the top **6** students in **Category B** as described in point 4.(b) above.

Eligibility criteria for Indian National Mathematical Olympiad (INMO), 2027

1. All INMO 2026 Awardees are eligible to write INMO 2027 provided they fulfil the eligibility criteria of IMO 2027 and EGMO 2028.
2. All those who qualify from RMO 2026 according to the qualification criteria described above are eligible to write INMO 2027.
